What is PAUL?

- Integrated system to manage many issues of the university
- Central database
- Rich client front end for administrative tasks (You will not see that)
- Web client front end for students and teachers (System demo later)
What is PAUL good for?

- Achieve one centralised platform for organisation, information and activities related to all matters of your studies

- Improve service for students
  - Online registration: avoid queuing
  - Online access to learning material, news, calendar, results of exams…

- Improve service for lecturers and administrative staff
  - Supports administrative processes: efficiency
  - Supports planning processes: lectures, rooms, time tables, …
  - Possibility of direct communication between lecturers and students via messaging components (PAUL system messages)

Programs in PAUL

Program

*tree-like structure*

*model for rules and regulations*

*different lectures each semester*
Choose an appropriate set of modules and register

Courses are chosen implicitly with registration to lectures

Choose one lecture per course and register. (in most cases there is a unique one)

The path from the root node to the module/lecture is denoted **context of the registration**

**Alles online auf einer Plattform**
Something went wrong? Corrections can be made by

- ... yourself, as long as the online registration phases are running
- ... the course manager of your institute, as long as no exam registrations have been made in the wrong context
- ... the central examination office

It may sound complicated.

But remember: If something goes wrong ....

Registration for an exam

The image shows a screenshot of the PAUL Demo platform, specifically the exam registration section. The interface is in German, with text reading "Alles online auf einer Plattform." The screenshot includes a table with columns for "No.," "Name," "Exam (Weighting)," and "Date." The table is showing details for a module with the name "Testmodul ZPS Veranstaltungsprüfungen," and the exam is scheduled for 1. Date (Open) with a weighting of 70%.
