What is PAUL?

- Integrated system to manage many issues of the university
- Central database
- Rich client front end for administrative tasks
- Web client front end for students and teachers

(You will not see that)
(System demo later)
What is PAUL good for?

- Achieve one centralised platform for organisation, information and activities related to all matters of your studies

- Improve service for students
  - Online registration: avoid queuing
  - Online access to learning material, news, calendar, results of exams...

- Improve service for lecturers and administrative staff
  - Supports administrative processes: efficiency
  - Supports planning processes: lectures, rooms, time tables, ...
  - Possibility of direct communication between lecturers and students via messaging components (PAUL system messages)
PAUL - the one Central Web Portal for Students

You can reach the website at:

https://paul.uni-paderborn.de

After the log-in you can change to the English version

Attention: to log in you need an IMT account and password!
You can register for the IMT account at:

- [https://serviceportal.uni-paderborn.de/web/portal/new](https://serviceportal.uni-paderborn.de/web/portal/new)
- or in Notebook-Café in room I0.401

(which may re-open after the Corona virus crisis,

see [https://imt.uni-paderborn.de/nbc](https://imt.uni-paderborn.de/nbc) instead)

Registration Time Periods

The most important time frames for your registrations to courses or exams of the summer term 2021:

- April 6th till April 30th (registration for modules/courses)
- April 26th till May 26th (registration for exams)

(see https://www.uni-paderborn.de/studium/paul-info/fristen-und-termine)

Contact your teamer/supervisor for further information about exam registration procedures within the CS institute (and within other faculties in case you have a minor subject)

Detailed information about the registration procedures at

Choose an appropriate set of modules and register

Courses are chosen implicitly with registration to lectures

Choose one lecture per course and register.
(in most cases there is a unique one)

The path from the root node to the module/lecture is denoted context of the registration
Support – PAUL at your Service

Something went wrong? Corrections can be made by

- ... yourself, as long as the online registration phases are running
- ... the course manager of your institute, as long as no exam registrations have been made in the wrong context
- ... the central examination office

It may sound complicated.

But remember: If something goes wrong ....
