What is PAUL?

- Integrated system to manage many issues of the university
- Central database
- Rich client front end for administrative tasks
- Web client front end for students and teachers

(You will not see that)
(System demo later)
What is PAUL good for?

- Achieve one centralised platform for organisation, information and activities related to all matters of your studies
- Improve service for students
  - Online registration: avoid queuing
  - Online access to learning material, news, calendar, results of exams…
- Improve service for lecturers and administrative staff
  - Supports administrative processes: efficiency
  - Supports planning processes: lectures, rooms, time tables, …
  - Possibility of direct communication between lecturers and students via messaging components (PAUL system messages)
PAUL - the one Central Web Portal for Students

You can reach the website at:

https://paul.uni-paderborn.de

After the log-in you can change to the English version

Attention: to log in you need an IMT account and password!
IMT:

You can register for the IMT account at:

Registration Time Periods

The most important time frames for your registrations to courses or exams of the summer term 2021:

- **Oct 4th till Oct 29th** (registration for modules/courses)
- **Oct 25th till Nov 25th** (registration for exams)

(see [https://www.uni-paderborn.de/studium/paul-info/fristen-und-termine](https://www.uni-paderborn.de/studium/paul-info/fristen-und-termine))

- Contact your teamer/supervisor for further information about exam registration procedures within the institutes (and within other faculties in case you have a minor subject)

- Detailed information about the registration procedures at [https://paul.uni-paderborn.de/](https://paul.uni-paderborn.de/) (Button “Help”)
Problems with PAUL? Please use the following support channel

Central support E-Mail: paul@uni-paderborn.de

give your name, matriculation number, phone number, module, course or exam number, problem, etc.

Choose an appropriate set of modules and register

Courses are chosen implicitly with registration to lectures

Choose one lecture per course and register.
(in most cases there is a unique one)

The path from the root node to the module/lecture is denoted context of the registration.
Support – PAUL at your Service

Something went wrong? Corrections can be made by

- ... yourself, as long as the online registration phases are running
- ... the course manager of your institute, as long as no exam registrations have been made in the wrong context
- ... the central examination office

It may sound complicated.

But remember: If something goes wrong ....

Registration for modules/lectures:

1. Click on the Study module.
2. Navigate to the Registration for modules and courses section.
3. Select the desired course (e.g., Informatik Master v3 → Major Subject → Focus Areas → Algorithm Design).
4. Click on 'Register' for each course.

This is the context of the registration.
